## Beach Wheelchair Locations 2022

Calling in advance to reserve a chair is recommended.

Please be sure to bring your own transfer help. Because these chairs have large balloon tires, you will also need to bring someone to push you. The weight limit for beach wheelchairs is 275 pounds. The weight limit for floating beach wheelchairs is 300 pounds.

Locations with an asterisk \* have floating beach wheelchairs that roll into the water. You might not be able to go into the water depending on conditions. You will need to bring a Coast Guard certified personal flotation device to use while you are floating. You will also need to bring someone to supervise while you are in the water.

Beach wheelchairs are managed by lifeguards. If there are no lifeguards on duty, you might not be able to use the chairs. Please respect and follow the decisions and directions of lifeguards and park staff while using the chairs. Call the location before you visit to get more information.

### South Region
